A STEAMER LEAVING WHITE HORSE RUNS FIFTEEN MILES DOWN THE FIFTY-MILE RIVER TO LAKE LE BARGE WHICH IS SIXTY MILES LONG. LE BARGE IS SURROUNDED BY VERY PICTURESQUE SNOW-CAPPED MOUNTAINS

LEAVING THE LAKE THE STEAMER GLIDES CAUTIOUSLY INTO THE THIRTY-MILE RIVER, A SWIFT AND DANGEROUS
WATER. THE SCENE IS MANY WRECKS AND DISASTERS.

ALL PLACER GOLD IS RECOVERED FROM THE GRAVEL BY SLUICING

IN KLONDIKE, PREPARATORY TO SLUICING, THE GRAVEL IS MINED FROM THE CREEK BOTTOMS AND HIGH BENCHES—
THE YEAR AROUND THE GROUND IS FROZEN AND MUST BE THAWED

THAWING WITH FIRES WAS THE FIRST METHOD USED

STEAM HAS BEEN ADAPTED TO MINING AND NOW IS ALMOST IN UNIVERSAL USE, BEING MORE ECONOMICAL

THE GOLD RUNS IN STREAKS THROUGH THE CREEK AND THE SUCCESSFUL MINER FOLLOWS THE "PAY-STREAK."

THIS UNDERGROUND MINING IS CALLED "DRIFTING"

THE DOGS WORK IN THE HARNESS IN WINTER AND PACK ON THEIR BACKS IN SUMMER
